

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

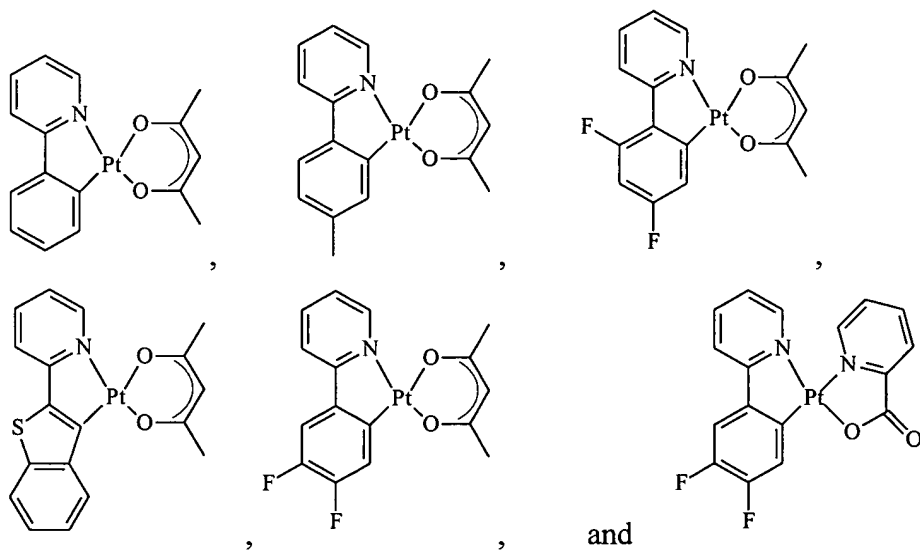

Listing of Claims:

- 1-8. (canceled)
9. (previously presented) An organic light emitting device including an emissive layer comprising an organometallic compound, wherein the organometallic compound has a chemical structure represented by a formula selected from the group consisting of:

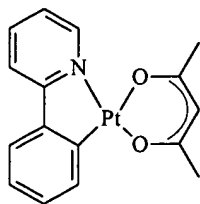

10. (canceled).

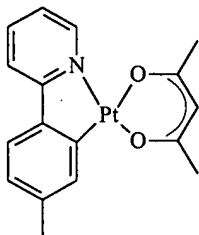

11. (canceled).
12. (previously presented) An organometallic compound having a chemical structure represented by a formula selected from the group consisting of:

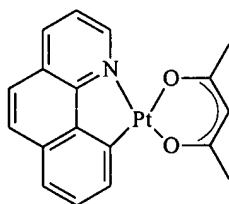

13. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

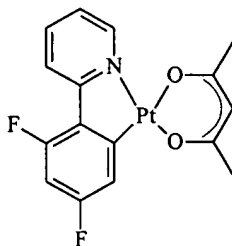

14. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

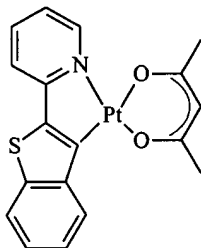

15. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

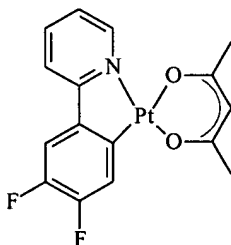

16. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

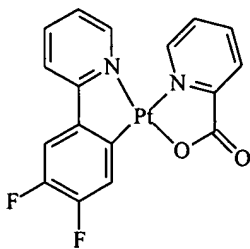

17. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

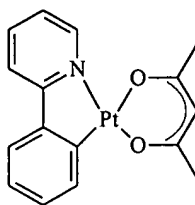

18. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

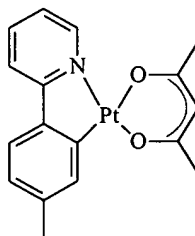

19. (previously presented) The organic light emitting device of claim 9, wherein the organometallic compound has a chemical structure represented by the formula:

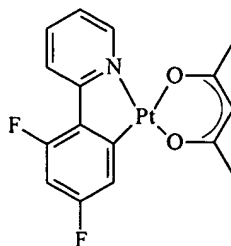

20. (new) The organometallic compound of claim 12, wherein the organometallic compound has a chemical structure represented by the formula:

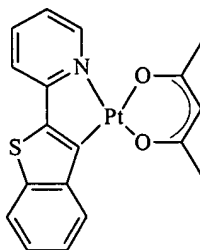

21. (new) The organometallic compound of claim 12, wherein the organometallic compound has a chemical structure represented by the formula:

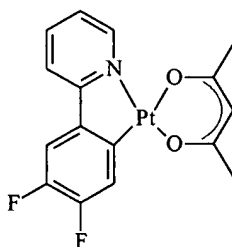

22. (new) The organometallic compound of claim 12, wherein the organometallic compound has a chemical structure represented by the formula:

23. (new) The organometallic compound of claim 12, wherein the organometallic compound has a chemical structure represented by the formula:

24. (new) The organometallic compound of claim 12, wherein the organometallic compound has a chemical structure represented by the formula:

25. (new) The organometallic compound of claim 12, wherein the organometallic compound has a chemical structure represented by the formula:
